

DAMG6210 Project – Food Bank

Mission Statement:

The project aims to efficiently and effectively manage a food bank system, managing supplies and funds from donors and sponsors, and tracking the number of recipients to meet the needs of the local community and fight hunger.

Objectives:

1. Donation and Sponsorship Tracking

- Record food and fund donations from donors and sponsors
- Generate a time report of the donations and their sources

2. Supply Tracking

- Record and monitor an inventory of food ingredients and other necessary supplies
- Generate a time report of the inventory to ensure the demands are met

3. Recipient Tracking

- Record the number of recipients coming to the food bank to establish the demands for supply management
